

The new calendar and committee list are attached. The new committee has a new member and we welcome Reg Hawkins to the committee.

Thankyou to Gordon Rugg - who has given so much to the committee and club over the past years. Gordon will continue in his role as weigh master and assist with the collation of the newsletters on his return from his travels. He and Jenny will be able to pick up their trophies on their return.

If you were a trophy winner and could not attend the presentations please collect them at the next BBQ or contact a committee person to organise pick up.

The calendar is attached but at this date we do not have the dates for the Inter – Club Grudge Match. Merimbula are to host and we will let you know when we know the dates.

The new committee have met and have decided to remove the Bonito Tuna from the Annual Catch list for our year long comp. As Geoff pointed out there have only been two caught in the last 6 years. This will be replaced by the Jackass Morwong allowing you to catch a Jackass Morwong as a separate species to the Morwong.

The new stove is currently being purchased and should be installed in the near future.

Thankyou to everyone who supplied a casserole for the presentation night. The food was delicious !!!

We have a new set of scales that have been very kindly donated by Fritz Drenkhahn. They are dual powered - either by 240v or batteries allowing them to be used at the boat ramp if required. They way up to 15kg and will be a valuable asset for our club. Thankyou Fritz.

If you have forgotten to renew your membership now is the time to do it. We are a great family orientated club and would love to see more juniors attending events and enjoying the sport of fishing. If you require a membership form please contact a committee member or download one off the website.

Quite a few fish already caught and noted on the Record sheet attached. Some of the fish are substantial in weight and set a challenge for the rest of the year. Maybe they are the sign of a good year of fishing ahead. There are also a few Southern Right Whales around at the moment.

Enjoy your fishing and we look forward to seeing you at the BBQ on the 29<sup>th</sup> August – 5.30 start. All welcome!!
